A MASTERPIECE ON MALBEC!

Welcome to this exclusive neighbourhood in Mount Nasura, known as Henrietta Heights where we have an absolute masterpiece of a home. Street presentation sets the standard high with the meticulously maintained gardens and lawn you will see this standard continues on throughout the home and to the back boundary.

Walk into the welcoming entrance and appreciate the formal and informal spaces this huge home affords you. To the left is the formal lounge area where you can sit and chat or enjoy the view out the front windows where the birds will put on a show of colour and song. This room has beautiful fittings and fixtures with carpet and a reverse cycle air conditioner to keep you warm or cool on days it is needed.

The ceramic tiles from the hallway flow into the formal dining and family area (which is huge) and then into the stunning kitchen. The kitchen is the hub of the home where everyone loves to be and there is room to accommodate several family members cooking up a storm. The cabinetry is plentiful and also provides a pantry and a nook for your microwave and other favourite kitchen appliances. The gourmet
